JOIN US

CASL invites affiliates and adjuncts to join our ranks and help strengthen our research.

- Affiliates are faculty members and research scientists employed by the University of Maryland, College Park (UMCP) who’ve accepted an invitation to associate with CASL.
- Adjuncts are faculty members and research scientists employed by other academic institutions (including those non-UMCP schools in the University System of Maryland) who’ve accepted an invitation to associate with CASL.

The CASL Affiliate/Adjunct program strengthens the research community by creating connections between scholars who have solid records of academic achievement in myriad disciplines.

More specifically, the program provides affiliates/adjuncts opportunities to:

- Conduct scientific reviews of CASL research designs, deliverables, and products.
- Access a roster of CASL scholars who can collaborate with them in proposing new and innovative courses of research, seeking external funding support, reviewing research, etc.
- Bolster CASL’s strategic scientific vision by providing guidance on, and access to, cutting edge research developments worldwide.
- Participate as paid members of CASL research teams.

NOMINATIONS

To be nominated for affiliate or adjunct status, please send your curriculum vitae (CV) to one of CASL’s four Area Directors (see contact information below).

Affiliates and adjuncts are not required to obtain a security clearance. CASL will review any requests for clearances on a case-by-case basis based on the research, circumstances, and the individual’s ability and interest in being cleared.

COMPENSATION

Payment, when appropriate, will be based on the degree of involvement in one of the opportunities listed above.

CASL AREA DIRECTORS

Amy Weinberg, Deputy Executive Director, Director of Research

Catherine Doughty  Second Language Acquisition  301.226.8828  cdoughty@casl.umd.edu
Hendricks Haarmann  Cognitive Neuroscience  301.226.8826  hhaarmann@casl.umd.edu
Michael Maxwell  Technology Use  301.226.8895  mmaxwell@casl.umd.edu
Michael Bunting  Cognitive Psychology  301.226.8997  mbunting@casl.umd.edu
